- Why Long Term Care Insurance is in the News
- Medicare, Medicaid and Long Term Care Insurance
- The A, B, C's of Long Term Care Insurance
- Long Term Care Options and Cost in the Portland Area
- Do You Need to Consider Long Term Care Insurance?

Inspired by a passion to inform people about long term care and its devastating potential, Suzanne shares with others through educational presentations. These consist of a brief background and history of this relatively new industry and the coming need due to 78 million baby boomers about to burst upon the "senior scene." Then, through an interactive, comprehensive overview of Long Term Care Insurance, she illustrates how it all works.

Suzanne compares sifting through the maze of long term care insurance with buying a car. There are different companies, each with different models, and each model sporting a variety of features and choices. She prefers knowing about many companies and options. Her presentation simplifies these issues and helps folks come to understand what to look for when considering a long term care insurance company and policy.

Suzanne is affiliated with MasterCare Solutions, Inc., a national brokerage which is the oldest and largest exclusively long term care brokerage in the Northwest. They thoroughly study the insurance company's philosophy, financial strength, policy language and claims records to assure that clients can count on their policy to perform when it comes time to use it. Through continuous updates and training they help her stay current in a rapidly growing and changing field. She is proud to be associated with a local company of such integrity and expertise.

Suzanne is health insurance licensed in the State of Oregon, and has earned the Certified Long Term Care (CLTC) designation. She has a Bachelor's degree from Kansas State University and a Master's from Lewis and Clark College. A retired teacher, Suzanne, has been in the Long Term Care Insurance field for three years.
